Who Uses **VEKTR**® ?

VEKTR® is used by franchise organizations in the restaurant, hospitality, retailer, sabns, healthcare, school, janitorial, property management sectors, but is not limited to any particular industry.

How is **VEKTR**® used?

VEKTR® inspections are used for brand compliance, quality control, preventative maintenance, and safety audits. **VEKTR**® manages follow-up and provides task scheduling, analytical reports and dashboards.

Why Use **VEKTR**® ?

Are you looking for a method of corporate quality improvements? Do you measure compliance, quality control, service levels, safety issues, health issues, profit hinderance, product sourcing, employee concerns and other issues? Are you concerned about legal infractions or government restrictions? Are your inspections time-consuming, inaccurate, data restricted, lacking followup and limited in your ability to analyze corporate-wide issues?

VEKTR® is the tool that provides a system for efficient corrective inspections, measures quality control and issues of concern, eliminates human errors, drops data directly into tables, provides you with an organized ability to follow up, measures and offers a method to analyze and report on corporate-wide concerns.

How Does **VEKTR**® Work?

VEKTR® takes your inspection forms, digitizes them, makes them available on offline devices to do on-site field inspection. Devices such as iPad, iPhone, Android Pad, Android smart phone, Window's laptops and tablet PCs, can all be used in doing inspections. Once an inspection has been taken, it can be synchronized to be sent to your **VEKTR**® web site, since it is web-based. Data from your inspection goes directly into data tables when inspections are synchronized. Inspections can be immediately viewed, action items are automatically dispatched and real time analytic reports can be generated for quick assessment and planning.

The Advantage of **VEKTR**®

VEKTR® gives you advantages in several ways by customization, by ease of use, granular security and continued training. When you get **VEKTR**® you get the entire software program.

VEKTR®s customization puts the steering wheel back in your hands to deliver change as needed, your way.

VEKTR® is easy to use, easy to train, practical and complete.

VEKTR® puts you in control of your security.

VEKTR® makes you the expert by training you now and later; you're the one that builds the efficiencies.

VEKTR® gives you the entire program, the inspections, the action items, the scheduling and the analytic reports.

VEKTR® is the tool that makes improvement possible and real.
